

Rina is trying to get her dream job as Assistant **Editor** at a magazine. Currently, she is doing an **internship** at a financial newspaper.

However, the pace there is very fast, and the **deadlines** are very strict. She has to **manage** her **time** wisely in order to finish all tasks on time.

She must never be late more than five minutes or else she will miss the morning **meeting**. Rina is not **allowed** to leave early because many people **depend** on her.

Some of her **responsibilities** include running reports and submitting analyses.

She must be very careful and pay attention because she works with numbers and **financial** information which is of utmost importance.
